L.A. UNIFIED TO CUT RIBBON ON URBAN GREENING PROJECT
AT EAGLE ROCK ELEMENTARY SCHOOL

WHAT: A new urban greening project featuring an outdoor learning space, grassy playfield, and bioswales to capture rainwater will be celebrated at Eagle Rock Elementary and Magnet Center. The Greening Project includes the addition of drought-tolerant plants and nearly two dozen shade trees.

The project is a joint effort between L.A. Unified and the Los Angeles Beautification Team. Funding was provided through a Proposition 84 grant from the California Natural Resources Agency.

The project is designed to enhance the school’s curriculum by creating a learning and recreational environment for its 850 students.

WHO: L.A. Unified School Board Member Dr. Ref Rodriguez
